Description

Twist-on suspended ceiling clips

Twist-on suspended ceiling clips attach to standard ceiling grids to provide a suspension point for double-ended hooks and suspension wires. They are made from strong white plastic and attach securely with a simple twist action.

- Suitable for light to medium duty (subject to maximum ceiling loading)
- Easy to use - just twist on to the metal grid of a typical 25mm / 1" wide suspended ceiling grid
- Handy hanging eye for steel and nylon wires for securing metal double ended hooks
- Compatible with our hook-end cables and loop-end cables (used lasso style as illustrated)

Suitable for POS applications and supporting banner rails such as Poster Snaps. This is also the best way to hang your office decorations at Christmas time. Useful fixing for hanging sneeze screens from suspended ceilings, in combination with our other wire and adjustable hook components.

Priced per clip
