Description

Modular tall sign stand with a square heavy base

Sturdy metal base and substantial aluminium column - the starting point for any InfoColumn design.

- The silver anodised aluminium finish, with a matching base and top cap, looks stylish anywhere.
- The overall height is nearly 2m tall. The pole is made from a strong aluminium extrusion which incorporates grooves on all four sides. These channels provide the means for fixing items to the pole at any height.
- Components such as snap action poster frames and brochure shelves can be ordered and fitted with ease at your chosen height.
- This sturdy sign stand is capable of carrying a significant load. It can form the basis of many bespoke-design display stands.
- The 450 x 450 mm flat steel base with bumper feet provides maximum stability as a free-standing unit.
- Additional accessories are available such as snap frames and banner arms (see below). Each accessory comes with the required fittings to attach it easily to the pole.
- Note: 2 channel sign stand with round base has been superseded by 4 channel sign stand with heavy square base

New InfoPole aerofoil shape column and base sign stand

- Slimline aerofoil design with 4 channel grooves to fit Snapframes and graphic panels (extra fixings required)
- The pole is shipped in 2 pieces that are then secured with grub screws, after the initial assembly the pole should not be disassembled.
