### Description

#### 30mm mitre corner snap frames for Infocolumn

- These aluminium snap frames each come with the required fixings to attach to the InfoColumn pole. The height and position can be adjusted as required.
- Frames may be attached individually or more than one frame fitted on a single column. Create a single-sided or double-sided display as required.
- The frames are made from visually pleasing 30mm wide aluminium profiles with mitred corners in standard silver anodised finish. Posters are inserted with ease.
- InfoColumn snap frames can be fitted portrait or landscape. For example three A3 frames (fitted landscape)

will create an attractive 3-tier poster display unit.

- Use the [Help with Sizes](#) guide to check poster dimensions for A3, A2, A1 or A0.

## Additional Information

---

### More Information

**Snap frames are supplied with anti-glare poster protectors and fittings to attach to InfoColumn pole (screwdriver required).**

The position and height of frames can be adjusted as required.

The frames are intended mainly to be fixed portrait but they can also be used landscape as extra holes are provided in the long sides. When considering using A1 landscape please consider that the frame will stick out 45cm each side of the pole. A0 and 30x40in frames are not recommended for landscape use - the sign would look a bit like the Angel of the North, but at 'bump into' height. A maximum of 6 A3 frames can be attached to each column (3 each side).

A maximum of 4 frames can be attached to each column in sizes A2 and 20x30in (2 each side).

When using A1 size frames it is suggested that only one frame be used each side. In the case of 30x40" and A0 it will not be possible to place more than one frame each side as the pole height will preclude any more.

Similarly if one or more brochure trays is to be added only one frame per side can be accommodated above the literature shelf.

### Delivery and Returns

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
