Description

Pavement A-boards A1 & A2 poster size

Our pavement A-boards are finished in a stylish silver metal and are perfect for displaying posters outdoors or inside. The sturdy aluminium A-frames will not corrode and the galvanised steel back panels add weight and stability for outdoor use.

- All of our snap frame A-boards have two snap poster frames so you can catch the eye of passers-by from

both directions

- Each A-frame pavement sign comes with clear poster covers and drainage holes to keep your adverts and posters clean and dry
- Our pavement signs are designed with rounded corners which look great and are a useful safety feature

No matter your budget, we have the right A-board pavement sign for you AND you can be confident that we do not skimp on quality!

We stock 3 sizes of snap frame pavement A-boards

For A-board size information please open Product Dimensions tab

Double Royal size A-board for rail operators

The new addition to our range of A-boards is the Double Royal poster size A Board. This printing size has been used almost exclusively by the underground and railway companies for the past 100 years. Double Royal poster size is 40 inches high x 25 inches wide (1016 mm x 635 mm). The A-board weighs Approx. 9 kg.

The Double Royal poster size A Board is a factory special order product only with a lead-time of about 4 weeks we do however keep a small sample quantity in stock.

Lockable notice boards and snap poster frames can also be ordered in this Double Royal printing size, please call the sales office for more information.

Specification of Snap frame A-boards

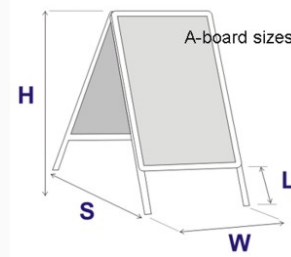

Our A Boards are supplied without posters. Advertising posters designed to your individual needs can be sourced in most towns from local printers or sign shops and changed when required to keep your message looking fresh. Snap frame A-boards are shipped out individually boxed with corner protectors to offer added protection. Poster protectors are shipped inside the frame. Because they are see-through they can be missed - so please look again as they are always included.

The poster frames on these pavement signs are supplied with drainage holes at the bottom of the frame but are not guaranteed 100% waterproof. Generally, this does not present a problem when posters are changed from time to time. Other options are to print the poster on water-resistant paper or synthetic media or to encapsulate the print. This is best for more permanent advertising boards. Alternatively, select from our range of [waterbase pavement signs](#) as these are fitted with virtually waterproof poster frames.

As well as supplying end users direct we are a trade supplier of A-boards.
