Description

Free standing poster holders - table top slanted sign & print holder

These sign holders are fabricated from high clarity material and feature polished edges to display your printed leaflet, price card or menu in a professional and pristine manner. Manufactured from acrylic-look PS high-grade plastic.

- Slanted models are for single-sided use. The print is angled for convenient viewing. Angled print holders are the best choice for low tables or when viewed by people standing up - e.g. in a showroom.
- Available in a range of sizes including DL size (1/3rd A4). To avoid costly mistakes please double check the size you require when ordering.
- A6 size is 10.5x14.8cm (approx 4" wide x6" high) portrait or a quarter of a standard sheet of A4 paper. For other size information click on View more details.

A4 and A3 poster holders for table top product display

- A3 and A4 slanted sign holders are available in both portrait (vertical) and landscape (sideways) versions.
- A3 poster holders give the best possible impact for product information displays, these are the largest of the acrylic lean back poster holders.

A3 and A4 poster holders to display information are not only used in retail but across many different industries where a table or countertop sign is used.

Many Art exhibition and museums use poster and print holders to give details of the exhibit, the small A6 holders are used when just a small amount of information is required right through to the ever popular A4 poster holder and then on to the extra impact of an A3 poster holder.

	Where can I use my slanted print holders	
We would normally say that these menu holders are best suited to indoor or covered area applications only, you can use them outdoors if you have waterproof menu cards printed but remember that they are incredibly lightweight and therefore do blow around on a windy day.
