Description

Mini label holders for tabletop display

Mini clear plastic label holders are available in four sizes, in either landscape or portrait versions (please select the format required). All mini label holders are supplied in packs of 10 pieces and prices shown are per pack of 10.

Acrylic-look ticket holders are generally slanted for easy reading, but we also offer an upright (stand-up) version

for double-sided display – for example as a table number sign stand.

Mini label holders are small print display holders – please refer to the images and Dimensions Tab for size information. Typically mini acrylic ticket holders are used as jewellery price holders, POS label holders for cosmetics displays, as buffet label stands, for florists' labels, giftware shop windows or to display information labels in museum display cabinets etc.

- The largest of the mini price label holders is A7 size – used for inserts measuring 7x10 cm (3"x4"). It is available in slanted landscape and portrait versions, or upright in portrait and landscape format.
- The next size down desktop stand takes typical business cards (6x9 cm, 60x90 mm) – to display an individual name card or equivalent size label or price sign. Can also be used to display some ATC cards. (Artist Trading Cards are 2.5" x 3.5" equiv to 63 x 90 mm)
- The two smallest size price ticket holders (A8 size and the micro A9 size) can be used for jewellery pricing or equally as a small table name holder for a wedding or banquet.

Plastic display stands for cards and labels

All our mini countertop label holders are made from high quality plastic which is clear and durable with the properties of Perspex. There are no sharp edges and insertion of a paper label or card is easy. The transparent material is wipe-clean and washable (e.g. when used as buffet labels or food service counter price displays) but high temperature commercial dishwashing should be avoided.

These small angled ticket holders can be used in two ways: with the base resting on the tabletop or as a mini tent card holder (i.e. with the bend at the top) to achieve a more shallow single-sided presentation of your printed label or hand-written card. See images for examples of use.

Additional Information

More Information	<p>These are very small print holders as you would expect to see in a giftware or jewellery department</p> <p>The clear plastic material is PS with appearance and performance very similar to acrylic. Perspex is a brand of acrylic. The mini ticket holders are very robust and almost unbreakable.</p> <p>We offer larger sizes of acrylic-style print holders as well as other ticket display options such as clip-on price holders. Please refer to links to other similar products which may be of interest.</p>
