### A4 sign holders 2 part - High quality acrylic with curved base

**Desktop Sign & Menu holders** are a really stylish and practical A4 Menu Holder available in portrait and landscape versions to display double sided product information. When used as an A4 price ticket holder price information can be quickly and easily updated with the snap clip base system.

- Curved aluminium base with sleek lines forms a stable foot for use on all types of tables, bars, desks or counters.
- Clever spring-loaded clip action allows the clear acrylic menu holder to be inserted into the base and held firmly. Both the sturdy A4 acrylic pocket and the silver metal base are included in the price.
- Menus, A4 price lists or leaflets printed either on paper or card are displayed professionally and easily changed as required. Suitable for single or double-sided use.

Smaller size Desk Menu stands are available in A5 and DL sizes. Curved bases can also be supplied on their own for use with a printed sign panel up to 6mm thick.

More Information	<p><b>Wrong size?</b> Click here for <a href="#">DL and A5 Menu Holders</a> in this style.</p> <p><b>A4 Desk Menu</b> suits A4 size paper and can be used double-sided, either with two A4 sheets inserted back-to-back or for displaying a double-sided menu.</p> <p>The acrylic pocket is rigid and perfectly clear. It is supplied covered in a protective film which needs to be peeled off and discarded before use.</p> <p>The aluminium base is the full width of the acrylic poster pocket - i.e. 210mm in the case of the A4 portrait version and 297mm in the case of the A4 landscape version. The spring action comes from concealed spring steel clips located within the base. The spring action is strong and requires firm hand pressure to open up the gap to insert the acrylic. So it won't become dislodged in normal use - yet the graphic can easily be exchanged by someone familiar with the mechanism.</p>
