- Also available: [A4 landscape leaflet holder](#), or as a [free-standing A4 brochure stand](#)

Description

A4 wall mounted leaflet holders

Wall mounted A4 leaflet holders are made from durable crystal-clear plastic for attaching to a wall, display or other vertical surface. A4 wall mounted literature holders are used to display A4 brochures or a stack of A4 flyers, to be viewed and taken by passers-by.

- Wall mount A4 leaflet holders are moulded from rigid clear plastic

- Portrait A4 single-pocket dispensers come with two screw holes for wall fixing
- These A4 wall pockets can also be mounted on some surfaces with double-sided tape

Highly resilient A4 wall holders

A4 wall literature holders are manufactured from HIPS, high impact styrene, which is extremely durable. The crystal-clear appearance is similar to Perspex – the dispenser is sometimes referred to as A4 acrylic wall holder.

- A4 wall leaflet holders are high-quality products used in showrooms, travel agents, universities, hospitals etc.
- A4 brochure dispensers can be mounted side by side – or there are multiple pocket wall displays available

Helpful information about wall brochure holders

For brochure capacity and packing details see **More Information** tab

For alternative mounting methods see **Assembly and Installation** tab

For A4 landscape wall holders, A4 table brochure holders, Multiple-pocket wall units, or other sizes: see **Related Products** (You may also be interested in)

More Information	<p>Leaflet capacity</p> <p>The number of leaflets or flyers which can be accommodated will depend on the thickness of the paper or brochure. For single sheets of paper printed on 150 gsm paper the capacity will be around 200 sheets. For internal capacity measurements see Product Dimensions.</p> <p>Packing</p> <p>A4 wall-mount brochure holders are sold as single units, individually bagged for scratch protection in transit. Larger orders are supplied in full box quantities - packed in 30's.</p> <p>Personalisation and customizing</p> <p>When considering adding a logo to your leaflet dispensers remember it may distract from, or obscure, some of the print on your brochure. Logos often require a white printed background in addition to any printed colours of the logo itself in order not to 'get lost'. An applied sticker is usually the cheapest way to create a branded dispenser - there are many specialist sticker suppliers (unfortunately we cannot assist with this service).</p> <p>Silk screen printing of logos at the manufacture stage is possible for a minimum of 90 pieces (at extra cost - please ask for a quote). Available print area is 60mm high by 200mm wide.</p> <p>Note: This is not a quick process as the units are manufactured and printed abroad. Allow approximately 8 weeks to allow for proofing, printing and shipping.</p>
Product Dimensions	<p>A4 wall mounting leaflet dispenser dimensions are:</p> <p>External Width: 231mm</p> <p>Internal Width: 224mm (Suits US Letter size 8-1/2" wide as well as A4 portrait)</p> <p>Height: 249mm</p> <p>Depth: 40mm</p> <p>Internal brochure capacity: 31mm</p>
Assembly and Installation	<p>Fixing</p> <p>Each leaflet holder is moulded with two screw fixing holes. We do not supply screws as the best choice will depend on the surface onto which the pockets will be mounted.</p> <p>In some situations, these flat-back brochure holders can be mounted with strong adhesive tape - double-sided tape is available as a Recommended Accessory. Please check that the wall or panel surface is compatible with adhesive tape fixing.</p> <p>Display unit manufacturers incorporating our leaflet holders in their constructions often use specialist adhesives matched to the material specified, e.g. for bonding HIPS onto acrylic.</p>

Delivery and Returns

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
