### Brochure dispenser stand with 5 side shelves and banner arm attachment

Maximise the impact of your showroom promotions with the InfoRack 5 shelf leaflet holder stand. This premium quality brochure dispenser stand comprises of a substantial round base and central mast with five shelves for leaflets or catalogues. Options are available with or without a side banner arm set.

- Strong and handsome 2m high leaflet holder stand with a smart satin silver finish.
- Recessed channels on each side of the mast allow side shelves and banner arm to be secured in any position, facing either way (tiered or zig zag).
- Five frosted 'ice' look acrylic brochure shelves (supported on metal arms) accommodate A4 leaflets or pairs of DL leaflets side by side on one shelf. An up-stand retains leaflets to a depth of 40mm without slipping off.
- Banner arm enables your own 400mm wide drop banner of any convenient height to be cantilevered to one side of the central mast. The bottom banner rail plus universal grippers are included with the banner arm option of this leaflet holder stand.

More Information	<p><b>Leaflet holder stand version with banner arm:</b></p> <ul style="list-style-type: none"><li>• Will accept any typical banner material such as paper, vinyl or fabric of various thicknesses.</li><li>• Plastic grippers are supplied which clip onto the banner material and then slide into the extruded aluminium banner arm providing a neatly concealed fixing.</li><li>• Length of banner is not critical - anything from around 600mm to 1800mm drop looks fine (depending on whether the literature shelves are to be positioned on one side or both sides of the central pole).</li><li>• Even if you don't have a banner to display consider buying the banner arm version as it can be added (and removed) as and when required.</li><li>• Sorry, we cannot supply banners but there are plenty of large format printers that can. Consider ordering a double-sided banner or use a simple image which will 'show through' successfully in reverse, depending on the banner material.</li></ul>
Product Dimensions	<p>2m high leaflet holder stand Actual shelf size: W: 250mm H: 320mm D: 40mm</p>
Assembly and Installation	<p><b>Assembly of InfoRack</b></p> <p>The base and pole are common to other products in our InfoColumn range. The pole (or mast) is attached to the base from below. Fixings are supplied together with an hexagonal key to tighten up securely. Once assembled the base and pole are very sturdy and will take a lot of weight.</p> <p>The top cap of the mast is removed to enable the banner arm and side-shelves to be slid down the appropriate channel from the top and nipped up tight when in position. Again the appropriate allen key is supplied. Final adjustment or subsequent re-arrangement is possible.</p> <p>The 5 frosted acrylic shelves are secured onto the side support arms with screws, such that it is possible by unscrewing and repositioning to create a tiered (one sided) or zig zag display - the latter being ideal for double-sided brochure dispensing. The inclination of the shelves is fixed but they can be located on either side of the mast at any convenient height.</p> <p>Whilst dismantling is possible it is probably more practical to keep the unit assembled and transport in that manner, if relocation is required. The banner can be removed or exchanged easily.</p>

## Delivery and Returns

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
