Description

Indoor chalk marker - The best fluorescent chalk pen on the market

Securit 15mm pens are the industry leading liquid chalk pens for the catering, pub and retail trades. The broad 15 mm nib perfect for large chalk sign boards and sandwich boards.

Indoor and covered outdoor use just protect from heavy rain. Wet wipe your text away quickly and easily wait a few seconds to dry and re-write your specials menu boards.

These liquid chalk pens are ideal for use on the following surfaces:

- Chalk board black boards
- Plastic boards
- Mirrors or glass
- LED back lit sign boards

When used in conjunction with a black or ultra violet lamp the colours really stand out to give an eye catching display, used all over the world by chalk-board artists and retail display professionals.

These pens are in stock to purchase online now and work really well with our new range of chalkboard A-Boards and tabletop chalk menu blackboards.

Is the broad tip the right size nib?

Yes if you need a bold message on a chalk A-board or a main heading on a blackboard we recommend the 15mm wide nib. A smaller nib chisel pen will be more suitable for normal size writing and details.
