- Black, Red, Blue and Green.

Choose your colour from the drop down list and add to basket, repeat for different colours.

Click Large View to see all the available colours.

Additional Information

More Information	<h3>Waterproof chalk pens</h3> <p>Depending on the type of sign you wish to produce, it looks like real chalk but without the mess! As a rough guide it works like this: Choose Securit waterproof pens for signs that are used outdoors and are going to be semi-permanent. These pens have vibrant colours and after a few minutes drying time are both light stable and waterproof. To remove your text or picture you must use either Securit chalkboard cleaner. To correct a small area, spray a small amount of your cleaning fluid on to a cloth and blot the area till the colour has gone, you need to be careful not to spray over any text or picture that you want to keep! For larger areas or to completely remove your text use the Securit spray, allow some time for the cleaner to soak in and then wipe away using a cloth. Tip, do not get the chalk ink on your clothes, remember it's waterproof.</p>
