Product Images

24" Waterproof media to print signs and banners for outdoor use

Outdoor waterproof prints, banners, and A1 posters can be produced in-house by printing on these water-resistant outdoor synthetic paper rolls using pigment inkjet printers such as Epson, Canon, and HP.

This opens up a whole new range of outdoor possibilities for affordable poster and banner printing: outdoor prints which are resistant to running or smudging and indoor banners which will not tear or rip easily.

- **Wondermedia**, tough coated polypropylene waterproof media 610mm wide for use outdoors:
 - **Polypro Wondermedia** is the economic choice for outdoor use from our Magic Media range.
 - **Folajet Wondermedia** is the original premium-grade proven over many years This product has been discontinued by the manufacturer.
- **Heavy-Duty Fabric**, Waterproof indoor or outdoor hanging banner material with a photo-quality finish. This fabric hangs well for indoor banners. Now stocked in 2 roll lengths 30m and 50m.

Green Magic - Sign-holders in-house printing solutions

Green Magic have for the last 20+ years pioneered great in-house printing and display equipment for Garden Centres and Outdoor Retailers. This tradition continues today with the backbone of waterproof poster creation - Wondermedia. This synthetic paper combined with Epson wide format printers revolutionised waterproof and fade-resistant point of sale solutions for many of the best independent outdoor retailers in the country.

In-house point of sale printing

It's not as expensive or as difficult as you think, with a PC, Epson printer, wondermedia on a roll and a little imagination you can print an A1 point of sale poster for as little as £4 per print. Supercharge that into printing all of your outdoor signs A3 down to the ever-popular bed card A5 and throw the expensive and time-consuming laminator into the skip!

More Information

All 610mm roll media is supplied wound on standard 2 inch cores. Magic Media is Green Magic's specialist own brand of waterproof, tear resistant and other media.

For indoor hanging banners use these tear-resist media types with [Poster Snaps and Poster Clamps](#) - in each case we have a width of poster bars which match the 610mm (24") width of this paper.

These coated inkjet synthetic media are receptive for pigment inks and can be used outdoors for several months. The print will not be waterproof with dye based ink.

Please check that your printer can use the media you are selecting as we cannot accept responsibility for items ordered in error.

- All of the above are suitable for Epson Ultra Chrome Inks.
- We do not recomend for outdoor use with dye-based inkjet printers due to the tendency to fade rapidly and dye-ink not being waterproof!
- This media is not recommended for Solvent printers.

Unlike most Epson roll media, the above are all tough and waterproof. The 2 versions of Wondermedia may be described as Polypropylene paper rolls, but in reality this is a plastic material and unlike paper it is tear resistant (the Folajet version is especially resistant to tearing).

610mm (24") inkjet roll media can be used for exterior outdoor applications with the following printers:

- Epson Pro 7600
- Epson Pro 7400
- Epson Pro 7450
- Epson Pro 7800
- Epson Pro 7880
- Epson Stylus Pro 7700
- HP Designjet Z2100
- Canon ImagePROGRAF 6100
- Canon ImagePROGRAF 6400
- Plus similar models

Delivery and Returns

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
