Short Description

- Large format printer paper for indoor use
- High-quality roll feed paper with inkjet coating

Product Images

Description

24" large format media for printing banners and signs - 610mm roll paper

Indoor prints can be produced by printing on the following types of specially coated roll paper. Ideal for use with large format ink-jet printers such as Epson, Canon and HP.

- **Matt Coated Paper**, 160 microns thick matte paper with a coated photo finish. Very economical roll paper

for indoor posters and hanging banners. Can also be used for trial prints before producing the final version on more expensive media. Note: this indoor media is not waterproof and can be ripped.

- **Glossy Photo Paper**, Beautiful glossy paper for photo-quality prints. When you need a photographic finish this 24-inch roll paper will deliver high-quality output worthy of your prized photographs. This 200-micron paper can curl so is best used in a frame – for example in [A1 snap frames](#).

More Information	<p>All 610mm roll media is supplied wound on standard 2 inch cores.</p> <p>These coated inkjet paper rolls are receptive for pigment and dye based inks. This paper is not waterproof.
