Description

Adhesive vinyl 42" - 1067mm wide-format inkjet printing

Indoor or outdoor banners and signs can be produced by printing on self-adhesive vinyl which can then be applied to a suitable substrate or backing board. The roll media is supplied with a liner to cover the adhesive during printing which is peeled off before use.

The adhesive vinyl is for use with pigment inkjet printers such as Epson, Canon and HP.

With self-adhesive roll media, applying prints to certain backing boards is ideal. for a strong cost-effective drop banner leave the backing sheet on the finished print for a tear-resistant banner.

Why we use Adhesive vinyl for posters

- It is really strong and water-resistant, ideal for use in POS printing for outdoor retailers
- **Adhesive Vinyl** Can be applied to a substrate such as Correx or foam PVC. Sticks very securely and is suitable for outdoor use for several months. In normal use prints will not smudge but without over-lamination would not be suitable for vehicles.
- Use for permanent indoor displays where you have a flat surface to stick to.
- Best adhesion is obtained above 15°C and when glued has a Fire rating - DIN 4102-1 B1

Alternative large format outdoor waterproof media

If you don't need the adhesive capabilities then you may like to consider the other waterproof media we stock for cost-effective in-house POS printing

All 1067mm roll media is supplied wound on standard 2 inch cores.

These coated inkjet adhesive rolls are receptive for pigment inks and can be used outdoors for several months. The print will not be waterproof with dye based ink.

Please check that your printer can use the media you are selecting as we cannot accept responsibility for items ordered in error.

- The above is suitable for Epson Ultra Chrome Inks.
- We do not recommend for outdoor use with dye-based inkjet printers due to the tendency to fade rapidly and dye-ink not being waterproof!
- This media is not recommended for Solvent printers.

1067mm (42") adhesive roll media can be used for exterior outdoor applications with the following printers:

- Epson Pro 9600
- Epson Pro 9400
- Epson Pro 9450
- Epson Pro 9800
- Epson Pro 9880
- Epson Stylus Pro 9700
- Canon ImagePROGRAF 8100
- Canon ImagePROGRAF 8400
- Plus similar models
