Description

Evacuation plans displayed securely

Fire escape plans should be displayed prominently in corridors, on the back of bedroom doors in hotels and cruise ships – plus countless other locations where evacuation maps can play a vital part in saving human life in emergency situations.

- Our evacuation plan frames are both professional and very competitively priced. Popular A3 size is a convenient size for most fire escape route plans or evacuation instructions. A3 size prints can be produced in-house if you have an A3 size printer, or use the services of a print shop.
- The frame is made of aluminium with a matte silver finish. The sides of the frame flip open to insert your plan – but only with the help of a lever tool which must be purchased separately. This means that management can update plans but residents, visitors and mischievous students cannot tamper or interfere with your important safety signs.
- The type of frame is a snap frame with 25mm (1") wide border – secure type with extra strong springs and without the usual finger-lift grooves: so the frame cannot be opened easily without the lever too accessory. Each frame is supplied with a clear plastic front cover and fixings screws.

More Information	Our secure snap frames make great fire exit route sign holders Secure snap frames which can only be opened conveniently with a lever tool offer a perfect solution to displaying fire and emergency exit routes from a building. As they use printed A3 inserts the signs can be customised for every location in the building. Irresponsible interference of the contents is avoided because most building users do not have access to the frame opening tool. The number of lever tools will vary from one user to the next. Please order them separately.
Delivery and Returns	- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery. - Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem. - For detailed information about Delivery charges or Returns and refund policies, please click on the links below.
