Assembly and Installation

Assembling the tall poster stand is easy and should take just a few minutes - you will need the Allen key tool included and a small cross-head screwdriver (not supplied).

Build the base and pole unit and slide the frames onto the pole. All of the components are height adjustable so choose the frame heights to suit you and tighten the screws to fix the frames in place.

Once assembled, the whole unit can be moved as is or can be dismantled again easily.

Please contact us if you have issues with building your stand - we're always happy to talk you through the steps.
