Description

Guardian offers a budget way to restrict access

This sign post comprises a regular black FreeStander from Green Magic with the added facility to attach almost any kind of link chain. With social distancing restrictions in force this product provides a low cost basic way to guide or restrict customers, visitors or warehouse operatives.

This product is not 'refined' but it serves a purpose and it performs well indoors or outside. It is rugged and functional.

This floor stand is supplied with a heavy rubber base (actually it is made from dense recycled plastic). Full details of the floor sign stand without the Guardian bracket can be found [here](https://www.sign-holders.co.uk/virus-protection/guidance-systems-signs/budget-sign-post-to-attach-link-chain.html), but it is slightly more economical to

<https://www.sign-holders.co.uk/virus-protection/guidance-systems-signs/budget-sign-post-to-attach-link-chain.html>

purchase the complete product as a 'set' from this page.

To fit the bracket:

Slide the bracket onto the upper part of the telescopic pole below the T-piece.

The sign stand is ideal to create your own post and chain system with the added benefit of an eye catching sign displayed at head height. We do not supply plastic link chain but many colours and reel lengths can be found online or from your usual garden chain supplier (if you are in the garden industry).

- The price shown is for ONE complete stand with frame and bracket
- The picture showing two stands and a chain is for illustrating how the product may be used.
- Individual Guardian brackets for adding to existing FreeStanders purchased from Green Magic can be purchased separately (see link below).
