## Description

---

### Economical aluminium framed sneeze guard for counters

The sneeze guard screen is available in two widths, 100 cm and 120 cm. Adjacent screens can be butted together to create a continuous protective screen along a reception desk or trade counter. This is an economical counter sneeze guard with the benefit of a smart silver anodised frame and legs – the screen can be free standing or screwed to the counter for a more permanent installation.

Some counter sneeze screens can look rather temporary or improvised, which does nothing for your image. Although our counter sneeze guard uses thin crystal clear plastic, it is properly framed so the thickness is not apparent and the screen is sufficiently rigid for general use, even in smart establishments. A premium version of this product is available with thicker acrylic glazing and with more adjustability to vary to aperture under the screen. See [Counter Protection Screen](#).

### Features of our framed sneeze screen

- Counter sneeze guard is pre-assembled with a sleek yet sturdy aluminium frame
- Simply attach the two feet using supplied concealed fixings
- Use the sneeze guard screen free-standing or screw down using the holes provided
- Clear plastic screen is 0.7mm thick PET which has excellent clarity – supplied with a peel-off protective film on each side
- The overall height is 100 cm. The sneeze screen itself is 70 cm high. There are two widths: 100 cm and 120 cm
- Perfect sneeze guard for reception desk including a long hotel reception desk or service counter
- Space under the screen allows documents or small packages to be handed across
- Can be paired with our [floor standing protection screens](#) to create safe access to a counter or travel desk by a number of customers

# Additional Information

Assembly and Installation	Minimal assembly is required. Simply attach the feet from the underside using the bolts and allen key supplied. Instructions are included.
