## Description

---

### Free standing graphic panel holder

Lift your displays with our adjustable posterboard stand. The portable graphic panel holder is designed to showcase foamboard, such as Foamex and other lightweight rigid poster boards, with ease. This cost-effective stand offers portability, perfect for use in indoor environments, away from bustle and knocks. In retail settings the floor stand can be free standing or stabilised - for example by merchandising boxes or stacking crates on the base. Its versatile design accommodates various panel sizes. Panels are displayed vertically.

## **Versatile design suits many sizes**

Manufactured from black metal, this adjustable posterboard stand is an ideal choice for exhibiting medium-sized graphics, signs, and promotions, typically up to 60 cm (24 inch) wide – for example A2 or A1 size posterboards. With adjustable-height top and bottom brackets, this low-cost poster stand securely cradles any mounted graphic or rigid posterboard up to 10 mm thick. Plus, you can even present two panels of the same size back-to-back for double sided display.

## **Posterboard stand for events and promotions**

Graphic panels can be printed onto various light-weight display boards to announce events or highlight your promotions. The posterboards, which can be displayed portrait or landscape, must be rigid as the stand only grips the top and bottom edges. Your printer can advise on the best substrate to use depending on the size envisaged. As the top and bottom retainer bars can be adjusted to any distance apart, from 12 cm minimum to over 150 cm, the panel holder can be re-set for different size foam-board or similar graphics.

## **Easily adjusted**

Height adjustment is achieved by moving the top and bottom bars up and down, with simple hand knobs to tighten and lock in the desired position. This is quick and convenient. No tools are required. The underside of the painted metal base is equipped with thin rubber pads to protect delicate floor finishes.

## **Suitable applications**

Please keep in mind that this stand may not be the best fit for bustling public spaces, where the risk of accidental bumps or toppling exists, especially when used with larger graphics. To enhance stability, you can place a weighted item onto the thin metal base. We recommend this as the most reliable way to use this economy posterboard stand. For sturdier options please review our alternative products pictured below.

More Information	<ul style="list-style-type: none"><li>• Unlike similar products on some marketplace websites, our stands are stocked and despatched from our UK warehouse. This helps us keep prices low and delivery fast.</li><li>• Poster boards are not included. We only supply the adjustable stand.</li><li>• Whilst the stand will fit A0 poster boards we suggest you review the intended location to establish suitability (e.g. away from drafty doors) to avoid upsets.</li><li>• Made from steel, the stand is painted black. The paint finish may be marked when the locking handwheels are tightened. So please take care when re-adjusting the height to suit a different size panel.</li><li>• Be aware that the paint finish is only a single coat as this product is manufactured to sell at a low price point. Any wear and tear is generally hidden behind the poster boards once fitted.</li><li>• Due to the risk of toppling over, we do not recommend for outdoor use. For short-term use outside even on still days we advise the use of sandbags or similar to 'weight' the base.</li></ul>
Product Dimensions	<p>The lower stand frame is 110 cm tall.</p> <p>The upper frame can be adjusted for panels up to 1.8m high, but for improved stability we recommend lower heights.</p> <p>The base is 24 x 30 cm, made from thin sheet material. This means that merchandise, boxes, crates or pallets can be stacked onto the base without 'rocking' i.e. for extra stability.</p>
Assembly and Installation	<p>The unit is supplied flat-pack. Assembly is quick and easy. Take care when inserting or adjusting the upper 'trombone' to avoid scratching the paint finish.</p>
Delivery and Returns	<ul style="list-style-type: none"><li>• We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.</li><li>• Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.</li><li>• For detailed information about Delivery charges or Returns and refund policies, please click on the links below.</li></ul>
