Description

Extra-large water-weighted pavement sign

Enhance your outdoor advertising with our extra-large water-weighted pavement sign featuring A0-sized snap frames for posters to catch the eye of any passer-by.

These signs boast a sturdy water-filled base, ensuring stability, and are available in a sleek silver-grey or classic black finish giving your promotional material a professional and attractive appearance.

Crafted with a robust back panel, our water-weighted pavement signs are built to withstand potential vandalism and harsh winds and provide long-lasting durability.

For added convenience, the moulded plastic base incorporates wheels so you can move your sign around as needed.

Capable of accommodating two A0-sized posters, changing your posters is super easy due to the snap open-and-shut frames. Just flip the four sides of the frame open, insert your poster behind the clear poster protector and snap shut again!

Sturdy outdoor poster display with water-stabilised base

No need to worry about your outdoor advertising with our sturdy outdoor poster display with a water-stabilised base!

Key features:

- The heavy-duty curved plastic base has a filler cap for adding water which weighs the unit down for stable outdoor displays
- The curved base is equipped with wheels for convenient moving around - even when filled with water
- A built-in handle for hassle-free mobility
- Two springs connected to the base to deflect harsh winds
- A0 snap frames offering a double-sided display, maximising the visibility of your pavement advertising
- Effortless poster changing with the snap open-and-closed frames - no tools required!
- Clear poster protectors included

To get the best out of your outdoor advertising display, we advise that you print your posters on water-resistant material. For extreme conditions, or when a fully waterproof frame is necessary, explore our higher-specification [WindPro](#) and [WindCheater](#) models.

Order now to raise the profile of your outdoor advertising!

Additional Information

More Information

Elevate your advertising game with our water-weighted pavement signs - the perfect blend of durability, convenience, and style.

- Available in two frame colours: sleek silver or classic black
- Easy to assemble
- Easy to move
- Fill the base with water or sand to give excellent stability

Don't forget - we don't supply the poster, so you'll need to get those printed. Make sure to use water-resistant materials for your prints to keep them looking good.

Product Dimensions

Product Dimensions.

Please note that this is an extra-large product.

Assembly and Installation

1. Remove Bolts from Springs.

2. Screw springs onto base of frame.

3. Place springs into locating holes on top of base.

4. Insert bolt with washer into base underside and screw into springs and tighten.

You will find the box contains two spring assemblies together with the double-sided poster frame and the base. The base should be filled with water after assembly and before use outdoors.

Unscrew the metal wing bolt with metal washer from the spring assemblies. Both black spring units, complete with their black plastic threaded fittings at **each** end of the spring, should be screwed into the bottom of the frame. The frame with springs attached should then be located into the grey plastic base. From beneath the base the wing bolts should be passed through the metal washers and inserted up through the base. Once engaged in the thread inside the springs the wing bolts should be fully tightened by hand.
