Description

Lockable Poster Cases - Key Lock Poster Case

Great value **lockable poster cases** are suitable for indoor or outdoor use.

Our **poster display cases** aka **key lock poster cases** can be found in countless situations: outside restaurants as menu cases, at community centres to promote events, convenience stores to advertise promotions and at many retail parks and shopping centres in use by major retail brands.

Poster cases are designed to display a poster behind a glazed hinged door fitted with a lock. Larger sizes such as A1 Poster case and Ao Postercase are fitted with twin locks for additional security and tamper resistance.

Weatherproof Poster Case

Our locking poster cases are weatherproof and suitable for mounting on outside walls. The larger sizes of key-lock cases, including A1 poster case and Ao poster case, are Premium models (designated by PREM suffix) with a rubber gasket waterproof seal.

Features and Benefits

- These attractive lockable poster cases are intended for use indoors OR outside to display posters.
- Key lock poster cases are weather resistant and the aluminium frame will not rust.
- The frame is anodised aluminium with 30mm depth (front to back).
- Posters are held in place with clear plastic clips around the perimeter of the frame – clips are hidden when the door is closed.
- The hinged door is glazed with a shatter-resistant rigid polycarbonate with good outdoor weathering characteristics. The back panel is white twinwall rigid plastic.
- This metal poster display case is fitted with a lock* and supplied with 2 keys.
- The frame width is 45mm (viewed from the front).
- Built-in door stays help to hold the door open during poster changes.

* Larger cases (A1 poster case and above) are supplied with 2 locks for extra security.
All locking poster cases can be mounted portrait or landscape.
Each poster case is supplied pre-drilled with fixing holes, wall plugs and screws.

More Information

Poster case is perfect for the display of a single poster

- Poster cases are mainly intended to display a poster matched to the size of the case – for displaying a number of individual smaller sheets you may wish to consider one of our Notice Board. The poster is secured by plastic clips concealed behind the rim of the door.
- As well as displaying posters printed on paper the display case will accept thicker card and other flexible substrates up to 1.5mm thick.

If you wish to use a Poster Case as a notice board (e.g. for multiple A4 sheets rather than a single poster) the individual notices will need to be secured to the back panel by sticky dots or Blu Tack. There isn't sufficient space behind the door for pinheads and moreover, the backing board is not designed to accept pins or thumb tacks.

Condensation

Condensation on the inside of the door can occur under certain atmospheric conditions. It is the same situation as inside a car windscreen where condensation can occur without implying that rain has actually entered.

Typically on a cold night after a humid day the water vapour in the air can condense on any cold surface (such as the glazed door or car windscreen) and this is unavoidable. In most situations, any misting clears of its own accord as the glass (or clear plastic) warms up again.

Some suitable applications for keylock poster cases.

The lockable poster case is a graphic holder sometimes referred to as an outdoor sign display case or keylock poster frame. With its hinged door, aluminium frame and wall mount fixings, the unit is practical and great value. We believe it's a cheap poster case for the quality!

One popular application is as a wall mounted menu holder for a restaurant or pub. It is very easy to change the contents so this poster case is ideal for displaying daily menus.

As an outdoor holder for posters, it's weatherproof and attractive. It looks equally good if you want to display posters indoors whether in a school, public building, factory or hospital.

It can be used for poster display in many situations: as a theatre poster frame, cinema poster frame, quad movie poster case (30x40" size) for outdoors, in poster displays for the public, as an outdoor poster case for advertising forthcoming events.

As well as being a wall mount sign holder they are used as movie poster cases outdoor or indoor.

LPC.A4

Lockable poster case | A4 Poster case, lockable | Outdoor silver finish | Other sizes available from stock

Key things to consider.

- The viewable area will be smaller than the physical poster size by 20mm all round.
- Maximum thickness of poster must be no more than 1.5mm.
- The frame width is 45mm (viewed from the front).
