Description

Notice boards with cork backing and locking door

Lockable outdoor notice boards are weather resistant and can be used indoors or outdoors. These low-cost outdoor notice boards are also great as menu display cases. Notices or menus can be secured easily with drawing pins.

- Great value notice boards are 30mm deep.
 - The size is defined by the number of A4 sheets which can be displayed. The A3 version will fit two A4 portrait side by side making it an ideal menu display case mounted landscape.
The A3 model is also available in **black** as well as silver. It is useful as a menu case for outside a restaurant to display two A4 menus side by side.
 - The durable silver anodised aluminium frame profile is 30mm deep with 45mm wide surround. It is designed for outdoor use.

- The hinged door is glazed with shatter-resistant rigid plastic and comes with a lock and key.
 - The notice boards are simply fixed by screwing through holes in the frame perimeter only accessible when the door is opened.
 - The design is similar to our [lockable poster case](#) but with a 12mm space between the door and the cork, backboard to allow for use of all types of drawing pins.
 - In severe exposure situations, the [Magnetic Notice board](#) with gasket seal is recommended but in most locations, these models are a satisfactory and lower cost alternative.

More Information

Condensation

These aluminium framed notice boards and menu display cases are suitable for interior or exterior use. Condensation on the inside of the door can occur under certain atmospheric conditions. It is the same as inside a car windscreen where condensation can occur without implying that rain has actually leaked inside. For example on a cold night after a humid day the water vapour in the air can condense on any cold surface (such as the glazed door or car windscreen) and this is unavoidable. In most situations any misting clears of its own accord as the glass (or clear plastic) warms up again. The same key fits all notice boards. This is a convenient feature for the person responsible for updating notices.
