Description

Table Sign Stands for A5, A4 & A3

This sign stand or POS holder is ideal for standing on a table, desk or sales counter. The table sign stand is used by many businesses and retailers especially garden centres where the benefits of Green Magic's Slim frames is appreciated. The adjustable sign stand has a black metal base and adjustable leg (max. 2ft + frame) suitable for use on plant tables or sales counters. Various colour frames can be ordered with co-ordinated T-piece holders.

The Slim frames are specially designed to accept A5, A4 And A3 paper inserts and can also be used with Laminated sizes without the need to trim the pouch giving a waterproof seal to the paper. Essential if used outdoors or under plant irrigation systems.

- Insert A5, A4 and A3 prints or POS material into the frame – can be used double-sided. Also suits laminated A5 paper for outdoor use and 8"x6" plant labels used by nurseries.
 - This sign stand can be used with frame horizontal or vertical.
 - Adjustable leg height from 300mm up to 600mm (plus frame).
 - The metal table-top base is made of steel and powder coated black with a durable paint finish. A plastic tube holder fitting is mechanically fixed to the base. This supports the adjustable height strong synthetic Non-Rust stem securely.
 - This POS stand is suitable for indoor and outdoor use.
 - To select your frame colour click on the coloured square .
 - The T-piece colour matches the frame. The leg and the base are black
 - **As used in all GCA award winning garden centres and outdoor outlets.**
- **Full list of [replacement spare parts](#) for this range is available from stock**

What's special about Green Magic garden centre POS stands?

We have developed this product over many years to withstand the harsh outdoor retail environments encountered by UK garden centres. The slim frames are made of extremely durable high-grade ABS plastic that have extra UV protectors built in. That's why they last longer outside in full sun locations than any other POS frame. They might cost a little more but they last much longer. Each slim frame comes with its own backing sheet to securely hold your pos in place, no more expensive POS blowing around the plant area.

Where can I use the POS stands

These table sign stands are not intended for floor standing applications as they are too short. We have a wide range of [floor sign stands](#) if that is your requirement.

Adjustable sign stands can be used in countless situations such as in shops and offices.

In garden centre these POS stands can be used outdoors and will last for many years.

Durable outdoors

The table-top sign stand with metal base is more resistant to breakage than plastic bases when used outdoors, especially in a windy location. The base is flat so that a heavy object can be placed thereon for stability outdoors.

Suitable applications for this small sign holder

Although these stands can occasionally get used on the floor they are too short for normal floor-standing applications. When fully extended the stem is 600mm (2ft) high, with the frame adding its own height on top. If placed on the floor the top of the frame is below waist height.

For floor use we therefore recommend you to consider our extensive selection of [floor signs](#). This M-base is not to be confused with the much larger flat metal base supplied with certain types of our floor-standing sign holders.
