Description

Snap frames with best selling 25mm silver profile

Snap frames are the best sign holders for displaying a paper printed message, which can be an informational notice or a product advertisement. Their ease of use is what makes them so popular. Signs, notices, and posters are displayed quickly and easily by opening the side profiles, removing the protective cover and placing your printed sign within the frame with the protective cover at the front, then snapping the frame shut, all done within seconds. No fiddly clips, just an easy to use professional quality snap frame.

Our professional quality snap frames are in stock in our UK warehouse and can be shipped for next day delivery. There are even quantity discounts so buying in bulk is as easy as a click no need to waste time with a call or email .

The width of the frame surround is 25mm, i.e. 1-inch wide border; this is the most popular profile for snap frame poster holders in the UK. The clip frame surround is easily opened with finger-tip pressure and snaps shut when closed to hold the contents securely

Quality is not compromised in this snap frame range - high volume production keeps our prices low. The curved profile surround of these mitre-corner frames offers contemporary styling. The smart anodised finish of silver snap frames will suit any decor.

We hold massive stocks of A4 snap frames, A3 snap poster frames, A2 silver snap frames and other popular sizes.

Ao snap frame: Ao poster frame with a 25 mm wide surround. Due to the shipping size the minimum sales quantity for Ao size is 2 pcs.

- The four sides of the snap frame are spring-loaded to hinge open and close with a snap action.
- Any paper sign, printed notice, or poster is slipped behind the supplied poster protector.
- Smaller sizes can be used outside with waterproof prints. For outdoor usage we recommend our range of [waterproof snap frames](#).
- Snap frames are so easy to use. Everything is included - even concealed wall fixings (screws and plastic wall plugs).

- Double-side adhesive tape is available as an alternative for fixing to suitable clean surfaces.
- [Suspension clips](#) are available for hanging snap frames on picture hooks or pins knocked into the wall.

More Information

More about these popular silver snap frames with square corners

25mm refers to the width of the snap frame surround. This is the part which opens up to gain access to the contents and the fixing holes.

- 25mm width is very popular for A4 snap frames and other frame sizes up to A1. A4 size is the standard paper size for office printers (except in N America).
- Mitre corners, also known as square corners, means that the corners are cut at a 45 degree angle such that the two profiles butt perfectly together. Precision manufacturing ensures the mitre joints close correctly without an unsightly gap.

This is provided that printed paper or thin card inserts are used and the poster size accurately matches the frame size.

Clip frames

Snap frames are sometimes called clip frames, not to be confused with the domestic type of poster frame with a hardboard back and clips around the perimeter. You may have searched for clip frames, snap picture frames or trappa frames because the aluminium profile traps the edge of the poster securely.

Size Information for aluminium snap frames

- The width of the surround is 2.5cm = 25mm or 1 inch
- Front to back depth of 25mm profile snap frame: 12mm (approx 1/2 inch)
- A4 relates to the size of paper an A4 frame will fit.
- A narrow strip around the edge of your print is hidden when the frame is closed.

Visible poster size: 22mm less than actual poster (i.e. 11mm all round your poster is hidden by the frame surround)

- The overall size of the frame is larger than the paper inserted.

Overall (external) frame sizes are shown in the table:

Table of standard snap frame sizes – relates to 25mm wide profile frames

Product Dimensions

Order Code	Poster size	External size	Visible area
AS.A5/25	148X210	177X239	126X188

AS.B2/25	500X700	529X729	478X678

SPECIAL SIZES

Other special sizes can be made to order.

Custom sizes cost a lot more than stock sizes unless the quantity is in excess of 50 frames. Please get in touch if you require special size snap frames.

Assembly and Installation

Fix snap frames using screws

- The best way to permanently fix snap frame is with screws.
- Screws and plastic wall plugs are included with every snap frame we supply
- The wall plugs are for use with masonry walls such as brick and most plastered walls
- When screwing onto wood the plugs are not needed
- A power drill and screwdriver are required for screw fixing (and we recommend using a spirit level and tape measure to ensure the frames are properly aligned). If in doubt please consult a proficient DIY or trades person.

Fix snap frames using adhesive tape

- Rolls of double-side adhesive tape are available as an accessory item.
- If **double-side adhesive tape** is used to fix frames (in place of the screws supplied) please check the smoothness and suitability of the wall.
- Tiles and similar surfaces may be suitable provided they are cleaned thoroughly before application.
- Tape fixing is not suitable for surfaces with a non-stick coating or porous/foamed surfaces.
- We recommend that tape is used around the full perimeter of the frame.
- Larger frames are normally best screwed. A residue of foam tape will be left on the wall or door after removal of the frame and the frame will usually be hard to get off.

Delivery and Returns

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
