- The UK's best selling A4 desktop frame
- A4 desktop photo frame with counter support

Product Images

Description

A4 Desktop sign holder in silver or black.

These A4 snap frame desktop sign holders can be used for displaying your certificates, signs and photos on a desk or countertop. The support leg has 2 positions so your photo frame can be either landscape or portrait.

- Snap-open-and-closed gripper lets you change your sign or certificate quickly and easily.
- Clear poster protector included keeping your certificate, photograph or notice looking nice and new
- Modern sleek aluminium front that's easy to keep clean

A slot in the back of the frame allows a folding support strut to be located for portrait or landscape display. The frame is conveniently angled for easy reading when standing on a desk or counter. Freestanding A4 desktop snap frames to stand on a table:

- This free-standing version is a **Dual-use** Opti Frame: the support leg folds away when wall fixing is preferred.
- For table-top display or for use on sales counters, reception desks etc., the support strut is folded out and clicked to lock.
- As with all our snap frames, the price includes a clear plastic poster protector sheet with anti-glare properties.

***Unique feature!** This counter display facility is a special feature unique to our Opti snap frames.*

More Information

If you want A4 Opti Frames without support legs click on [A4 Snap Frames](#)

The Opti frame with support stand is the ideal A4 snap frame when you're not sure how the frame will be used - e.g. for sending out approved dealer certificates, which could be wall-hung or stood on the sales counter.

- The above image shows how the folding support strut is slotted into grooves provided in the back panel and engaged to lock into place.
- When not required it folds away neatly into the recessed back of the frame.
- Repositioning the leg to change orientation of the frame from landscape to portrait (and vice versa) is accomplished with ease in a few seconds.

Product Dimensions

Size Information for Opti snap frames

- The width of the surround is 2.5cm = 25mm or 1 inch
- Front to back depth of 25mm profile snap frame: 17.4mm
- A4 relates to the size of paper an A4 frame will fit.
- A narrow strip around the edge of your print is hidden when the frame is closed.

Visible poster size: 19mm less than actual poster (i.e. 9.5mm all round your poster is hidden by the frame surround)

- The overall size of the frame is larger than the paper inserted.

Overall (external) frame sizes are shown in the table:

Opti frame sizes

Order Code	Poster size	External size	Visible area
ASO.A4/25C	210X297	239X326	188X275
ASO.A4/25C-B	210X297	239X326	188X275

Opti frames are supplied fully assembled and individually boxed.

Hang Opti frames on a picture hook

- Smaller Opti snap frames up to and including A3 size can be hung on a single picture pin nailed into the wall.
- The back of the frame provides this facility whether the frame is to be mounted portrait or landscape
- Hanging a snap frame on a picture hook, nail or tack only requires a hammer.
- Picture hooks and tacks are not supplied. They are available from hardware stores.

Fix Opti frames using screws

- The usual way to permanently fix Opti frames is with screws.
- Screws and plastic wall plugs are included with every snap frame we supply
- The wall plugs are for use with masonry walls such as brick and most plastered walls
- When screwing onto wood the plugs are not needed
- A drill and screwdriver are required for screw fixing (and we recommend using a spirit level and tape measure to ensure the frames are properly aligned). If in doubt please consult a proficient DIY or trades person.

Fix Opti frames using adhesive tape

- Rolls of double-side adhesive tape are available as an accessory item.
- If **double-side adhesive tape** is used to fix frames (in place of the screws supplied) please check the smoothness and suitability of the wall.
- Tiles and similar surfaces may be suitable provided they are cleaned thoroughly before application.
- Tape fixing is not suitable for surfaces with a non-stick coating or porous/foamed surfaces.
- We recommend that tape is used around the full perimeter of the frame.
- Larger frames are normally best screwed. A residue of foam tape will be left on the wall or door after removal of the frame and the frame will usually be hard to get off.

Assembly and Installation

Delivery and Returns

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
