## Description

---

### **A5 and A6 office door signs in smart silver or classic black**

Name plates for office doors are essential for any multi-room building. These great value A5 and A6-sized office door signs are available in a smart silver finish or classic black. The safety-tipped corners make them a great choice for use in locations such as schools and residential homes where safety in use is an important consideration.

These A5 and A6 Opti frames are perfect for photos, small notices and as changeable name plates or office door signs using paper inserts printed on your office printer. Just flip open the frame surrounds to swap over your message (no need to remove the frame from the wall or door). A poster protector cover sheet is included. The A5 snap frame suits 'picture plus resident's name' bedroom door signs in care homes.

- Neat snap frames are made from slim 14mm (1/2") wide aluminium and can be mounted landscape or portrait.
- Choice of brushed silver or black frame finish.
- Plastic-tipped corners are safe in use (no sharp corners found on some snap frames).
- The A6 snap frame fits inserts size 148x106 mm (approx. 6"x4").  
The A5 snap frame fits inserts size 210x148 mm (approx. 8"x6").
- Can be screwed to walls or fixed using double-sided adhesive tape. (1 roll per 25-50 frames).
- A6 and A5 frames can also be hung on a picture hook or nail, although this is less secure.

### More Information

#### Want to compare these with [A4 Snap Frame](#)?

#### **Features of A5 Snap Frame and A6 Snap Frame - Opti Frame range.**

- Supplied individually boxed. Complete with clear plastic cover sheet. Ready to fit
- Just snap open the frame to change inserts. Super slim 14mm wide silver anodised aluminium frame surround.
- Can be fixed directly to most types of door. No need to remove from wall to update.
- Ideal for notices which need to be changed frequently - even every day.
- Select your own screws to suit the application, or use double-sided adhesive tape (the frames are very light).
- Can also be hung on a pin or nail either portrait or landscape.

### Product Dimensions

#### **Size Information for Opti snap frames**

- The width of the surround is 1.4cm = 14mm
- Front to back depth of 14mm profile snap frame: 13.2mm
- A6 relates to the size of paper an A6 frame will fit.
- A narrow strip around the edge of your print is hidden when the frame is closed.

Visible poster size: 10mm less than actual poster (i.e. 5mm all round your poster is hidden by the frame surround)

- The overall size of the frame is larger than the paper inserted.

Overall (external) frame sizes are shown in the table:

#### **Table of Opti snap frame sizes - relates to 14mm wide profile frames**

<b>Order Code</b>	<b>Poster size</b>	<b>External size</b>	<b>Visible area</b>
A6 Opti Frame	105X148	126X169	95X138
A5 Opti Frame	148X210	169X231	138X200

Opti frames are supplied fully assembled and individually boxed.

### **Hang Opti frames on a picture hook**

- Smaller Opti snap frames up to and including A3 size can be hung on a single picture pin nailed into the wall.
- The back of the frame provides this facility whether the frame is to be mounted portrait or landscape
- Hanging a snap frame on a picture hook, nail or tack only requires a hammer.
- Picture hooks and tacks are not supplied. They are available from hardware stores.

### **Fix Opti frames using screws**

- The usual way to permanently fix Opti frames is with screws.
- Screws and plastic wall plugs are included with every snap frame we supply
- The wall plugs are for use with masonry walls such as brick and most plastered walls
- When screwing onto wood the plugs are not needed
- A drill and screwdriver are required for screw fixing (and we recommend using a spirit level and tape measure to ensure the frames are properly aligned). If in doubt please consult a proficient DIY or trades person.

### **Fix Opti frames using adhesive tape**

- Rolls of double-side adhesive tape are available as an accessory item.
- If **double-side adhesive tape** is used to fix frames (in place of the screws supplied) please check the smoothness and suitability of the wall.
- Tiles and similar surfaces may be suitable provided they are cleaned thoroughly before application.
- Tape fixing is not suitable for surfaces with a non-stick coating or porous/foamed surfaces.
- We recommend that tape is used around the full perimeter of the frame.
- Larger frames are normally best screwed. A residue of foam tape will be left on the wall or door after removal of the frame and the frame will usually be hard to get off.

## Assembly and Installation

## Delivery and Returns

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
