Description

Waterproof Outdoor Snap Frames A3 & A4

Exterior waterproof snap frame made from 25mm aluminium profiles incorporating a foam rubber gasket within the frame to keep paper signs and posters dry. Outdoor snap frames are perfect for displaying A4 notices and A3 printed signs outside.

- These waterproof snap frames are ideal for displaying A4 and A3 posters outdoors without the need for

laminating.

- As well as standard paper these exterior snap frames accept thicker inserts: anything from standard thickness paper up to 3mm display boards.
- An over-size poster protector is included with a finger-lift PULL tab accessible when the snap frame profiles are opened.
- Fixing screws are also supplied.

More Information

More about exterior grade snap frames for A4 and A3 posters

If you are looking for extruded aluminium outdoor signs these waterproof snap frames are the answer. Posters can be changed with ease by lifting up the spring-loaded frame profiles to gain access to the poster cover sheet. This frame features an over-size poster protector with a gasket seal behind it to keep out the rain. The gasket comprises foam rubber strips which provide a weather-proof seal and keep posters dry.

Useful for outdoor shopping centre signs, for garden centres, theme parks, holiday and leisure centres, builders merchants, education and other public sector notices, and so on. Other outdoor sign holders we offer as well as this weatherproof snap frame range include snap frames for encapsulated prints and plastic for laminated prints – these are the cheap poster frame options. A more expensive option we also offer is a lockable poster case. Please note that condensation can occur within a waterproof snap frame whenever the ambient temperature falls below the dew point. It is advisable to print posters on a grade of paper, often referred to as waterproof paper, which is resistant to humidity. Likewise the ink used should be resistant to fading in sunlight if a poster is intended to be exposed to daylight for some time.

Waterproof snap frames are designed to be mounted onto a flat wall or surface so that the back is not exposed, as this may compromise the ability to remain waterproof. To mount on alternative surfaces such as fences and railings we recommend that you first mount the frame onto a rigid solid backing board, and then attach the backing board to your desired location.

Size Information for aluminium snap frames

- The width of the surround is 2.5cm = 25mm or 1 inch
- Front to back depth of 25mm profile snap frame: 16mm
- A4 relates to the size of paper an A4 frame will fit.
- A narrow strip around the edge of your print is hidden when the frame is closed.

Visible poster size: 2mm less than actual poster (i.e. 1mm all round your poster is hidden by the frame surround)

- The overall size of the frame is larger than the paper inserted.

Overall (external) frame sizes are shown in the table:

Table of Waterproof snap frame sizes - relates to 25mm wide profile frames

Order Code	Poster size	External size	Visible area
AS.A4/25W	210X297	259X346	208X295
AS.A3/25W	297X420	346X469	295X418

Fix snap frames using screws

- The best way to permanently fix snap frame is with screws.
- Screws and plastic wall plugs are included with every snap frame we supply
- The wall plugs are for use with masonry walls such as brick and most plastered walls
- When screwing onto wood the plugs are not needed
- A power drill and screwdriver are required for screw fixing (and we recommend using a spirit level and tape measure to ensure the frames are properly aligned). If in doubt please consult a proficient DIY or trades person.

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
