## Description

---

### Wood effect snap frames for wall mounting or countertops

Our wood effect snap frames are perfect for wall displays, changeable door signs and counter, table or desk-top notices and photographs. The snap action frames are metal, finished to look like they're made of wood – so you get the homely and rustic appeal of wood with the long-lasting quality of metal frames.

Available in a range of sizes, and with or without a table-stand attachment, these frames are ideal for all kinds of display purposes in portrait and landscape aspects. Easy to use and mount, our wood effect picture frames have all the safety features you'd expect from a quality snap frame: snap-action picture loading, safety corners and clear plastic cover sheet.

- Clever snap frames made from aluminium with a durable and attractive wood-look finish
- Choice of wall and door-mounted or tabletop versions
- The fold-way leg of the table photo frame means it can also be mounted to a wall or door

### Photo frames for desks

Use one of our wood effect picture frames in a smaller size as a photo frame – they look great on desks, counters, bars and sideboards!

### Sizes

- The A6 frame fits inserts sized 148x106mm – approx. 6"x4"
- The A5 frame fits inserts sized 210x148mm – approx. 8"x6"

**Width of the frame surround is**

A4 size                    25mm (approx. 1in wide)

A5 and A6 size   14mm (approx. 1/2in wide).

The one-piece moulded back panel is brown to tone with the wood effect of the frame front. The wood effect is similar to dark oak.

Supplied without wall fixings but with the provision for screwing onto a wall or door - alternatively double-side tape fixing often worrks well as the frames are very light.

The fold out stand can be clipped in two ways to allow upright or horizontal display of pictures, photos, postcards or other paper-based inserts.

## Assembly and Installation

### Fix snap frames using adhesive tape

- Rolls of double-side adhesive tape are available as an accessory item.
- If **double-side adhesive tape** is used to fix frames (in place of the screws supplied) please check the smoothness and suitability of the wall.
- Tiles and similar surfaces may be suitable provided they are cleaned thoroughly before application.
- Tape fixing is not suitable for surfaces with a non-stick coating or porous/foamed surfaces.
- We recommend that tape is used around the full perimeter of the frame.
- Larger frames are normally best screwed. A residue of foam tape will be left on the wall or door after removal of the frame and the frame will usually be hard to get off.
