Description

Illuminated poster case

This illuminated poster case is part of the Magneco range of slimline LED poster display light boxes. With their slimline casing and easy-change frames, it's no surprise that these cases are very popular as backlit menu boards, but the range of sizes available means you can put one (or more) of these to all sorts of uses in a variety of settings!

This high-quality light box has an acrylic front cover with powerful magnetic closers to keep your graphic, print or poster neatly in place. Use singly or in multiples to create a stunning, eye-catching display in-store or to tempt in passers-by!

- A4 size makes a great LED photo frame – A3 makes an impressive LED picture frame
- A2 and A1 LED poster frames look equally good in the home, showroom or boardroom
- 13 amp combined plug plus power supply unit (PSU) comes with a 3.5m long plug-in lead
- LED poster light box has a slimline case just 13mm thick.
- Even illumination level across the panel – 2200-2500 LUX.
- The colour temperature is 6500K/daylight.
- 60,000-hour lifespan when used 7-8 hours per day.
- LED lights save on energy consumption and cost!
- Wall fixings for portrait or landscape mounting are included along with instructions.
- Compatible with backlit printed films and matt/gloss poster papers (provided not too opaque).
- There is also a [suspended double-sided version](#) of this product.

For quantity and branded versions please get in touch with our friendly sales office who will be able to help you (MOQ 25 pcs).

Please note: your menu light box is for indoor use only and must be placed at 30cm from a window and out of direct sunlight. The illuminated poster case has been manufactured to work in indoor temperatures up to a maximum of 35C.

SMBB.LE D.A2	420x594mm	402x576mm	460x634mm	2700-3000 LUX
SMBB.LE D.A1	594x841mm	576x823mm	634x881mm	2300-2600 LUX

Assembly and Installation

The LED poster frame is supplied with a UK 13 amp plug power supply. The 3.5m long lead from the PSU to the light box is low voltage (12V) so there is no danger if the cord is accidentally frayed. Wall hangers are supplied. These fit into a recessed channel in the rear of the light box. They can be positioned for portrait or landscape display. Screws need to be fixed into the wall at the correct height. Generally the supplied plastic wall plug and screws are suitable for typical masonry walls. Superior grade wall plugs may be more suitable for larger size frames fixed to plasterboard walls - we suggest Fischer Duopower which can be purchased from hardware and DIY stores.

Delivery and Returns

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
