Description

Illuminated Freestanding Double-sided Totem

Introducing the Totem Lightbox – an illuminated floor standing double-sided poster display unit designed with uncompromising quality!

Discover the Totem Lightbox, a true testament to product excellence that delivers your bright illuminated message with maximum impact. Captivate your audience with this imposing and stylish double-sided freestanding lightbox, guaranteed to illuminate your indoor poster displays.

Crafted with precision, these lightboxes stand tall with an imposing height of nearly 6 feet (1720mm) , accommodating either 600mm or 800mm wide x 1700mm high posters for unmatched visibility. Its elegant convex shape adds an aura of sophistication to any space, while the silver anodised aluminium casing and silver powder-coated steel base unite to create a sturdy and captivating frame built to last.

Easy change graphic system

Unmatched convenience is at your fingertips with the Totem Lightbox. Its front opening snap frame sides let you effortlessly change posters, saving precious time and effort. Lumi Totem is perfect for illuminated displays promoting upcoming exhibitions in museums and art galleries – yet equally at home in a casino or bingo hall foyer.

Your precious posters remain shielded from damage and dust, thanks to the anti-glare PET poster covers, secured with a magnetic closure on one side and fixed permanently on the other. The front cover sheets on each side are cleverly hinged to make poster changes quick and convenient.

But that's not all – the Totem Lightbox boasts powerful internal lighting, elegantly illuminating your posters and grabbing attention like never before. Setting up is a breeze with the included 2m cable and plug, providing all you need to jumpstart your promotional journey. Rest assured with the CE certificate, a testament to its unwavering quality and safety.

Choose excellence; choose the Totem Lightbox. Ideal for businesses and organizations seeking a sleek and professional display of their promotional material, this masterpiece is second to none.

Totem Lightbox – Where Quality Meets Brilliance

Choice of sizes

Lumi Totem light boxes are available in two sizes:

600mm wide x 1700mm high (24" x 67")

800mm wide x 1700mm high (32" x 97")

More Information

Lumi Totem is a stylish and practical floor-standing lightbox, nearly 6ft tall

- Display eye-catching illuminated images and posters printed on paper, backlit film or Duratrans.
- Changing posters is a snap – quite literally – as the side profiles snap open for you to insert your graphic.
- This floor-standing lightbox is double-sided. On each face, there is a poster protector sheet with magnetic closure to retain and protect your illuminated graphic.
- A particular feature of our design is that the poster protector is captive – hinged down one side, so it won't fall out when changing posters. This is a patented feature.
- The current model of Totem lightbox has a standard T8 fluorescent tube, mains lead and plug. An updated model with LED powered internal light source is scheduled to be available soon.
- It is delivered flat-packed and requires final assembly (which is quite straightforward).
- Each unit is supplied with CE certification and a UK moulded plug.
- Posters are not included. We recommend you order from a printer specifying that they are for use in a poster lightbox. They will print onto backlit film, duratrans or light-guage poster paper which allows adequate rear illumination.

Product Dimensions

Our totem lightboxes are stocked in two sizes:

Model	Poster Size	Visible poster area	Overall size
LUMI.T	600 x1700 mm	580 x 1700 mm	650(w) x 350(d) x 1720(h) mm
