Description

Cleaning shedule wall mounted holder

ClearWindow checklist holders offer a great way to display check lists on the wall of a washroom, shop floor and so on to record service visits or maintenance checks.

Made from high quality clear polycarbonate the front panel has a large opening to enable writing directly on your check sheet or toilet cleaning schedule. Available in A4 size in portrait and landscape versions.

- Checklist holder is made from virtually unbreakable rigid polycarbonate.
- Frameless appearance looks clean, smart and professional.
- Supplied with 4 clear adhesive pads which will stick the holder securely to smooth clean surfaces, walls, windows etc.
- On glass ClearWindow units can be used double-sided.
- Top thumb hole to change daily or weekly checklists with ease.
- Front panel is also hinged to open fully for cleaning - simply lift up and open the front flap.
- This product matches ClearView range - a similar design but without the 'write-on' aperture.

More Information

ADDITIONAL INFORMATION

This polycarbonate Checklist Holder fits A4 size prints. Two versions of ClearWindow are available - portrait and landscape. Dimensions of the window aperture are shown in the diagram below. This is the part that can be written on by cleaners, maintenance staff etc.

Create your own checklist to suit your needs and print off as many copies as you need. Ensure that the part intended to be written on fits inside the window opening. A couple of spare copies can be stored in each ClearWindow holder and brought to the front when the previous sheet has been completed.

The rear panel of the holder is flat and rigid making it a suitable writing surface behind your service check sheets.

Fixing is very easy and no tools are required. Each ClearWindow holder is supplied with four circular clear adhesive pads made from a strong gel adhesive. They will grab and hold permanently onto smooth surfaces such as plastered wall, ceramic tiles and glass. Some toilet walls and cubicles have an anti graffiti coating to prevent contaminants sticking - and that can affect our adhesive. If in doubt please check one unit stuck up overnight (or longer) before fixing multiple units. In the unlikely event that the adhesive pads do not perform as expected please contact us regarding alternative fixing options (e.g. drilling into the wall and screwing).

As with any adhesive system it is important that the wall is clean, completely free of grease and dry before application. Firm pressure is required over the adhesive fixing points to ensure a good bond is formed.

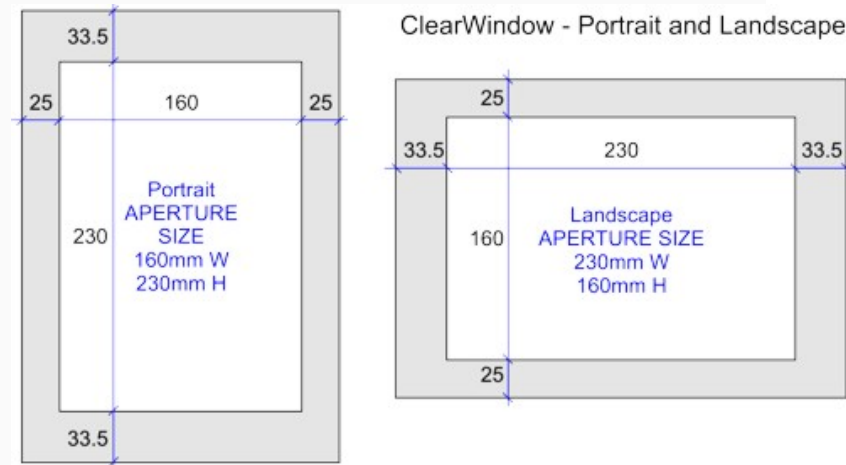

Adhesive fixings of this type are not suitable for flaky substrates, rough timber or bare brickwork.

ClearWindow is not intended for outdoor use as paper inserts will get wet (unless checklists are printed on waterproof synthetic paper and smudge proof pens are used).

Dimensions of the available sizes are as follows:

Product Code	Poster Size	Checklist Window / Aperture Size	External / Physical Size
CW.A4	(A4) 210x297mm	160x230mm	225x305mm
CW.A4L	(A4) 210x297mm	230x167mm	305x225mm
