- Self-adhesive back for quick and simple attachment to smooth, solid surfaces
- Stores up to 5 sheets of A4
- Can be read from both sides when applied to glass
- Matching coloured frame on both sides

## Description

---

### Facilities checklist A4 sheet holder with pen holding loop

**Duraframe Note is a check sheet holder with several attractive features making it suitable for many applications ranging from factory assembly areas to upscale toilet and bathroom facilities.**

The opening in the flexible front panel allows for service personnel to write directly onto the check list.

Other features include:

- Self adhesive back for easy fixing on a wide range of services. Simply peel off the backing sheet and apply it to the wall, window, locker, machinery etc.
- Can be peeled off without leaving a residue or used double-sided on glass.
- Flexible front flap with magnetic closure makes it easy to swap sheets. The rear stays firmly stuck to the wall. Just lift up the flap to exchange sheets (several sheets can be accommodated).
- Attractive black or silver border frames your print and incorporates a pen holder which can be useful in some situations.
- Will work on certain slightly curved surfaces such as machinery or refrigerated displays.
- Ideal for health and safety check sheets, maintenance schedules, attendance lists, toilet cleaning signs and many other applications.

### ADDITIONAL INFORMATION

This flexible Check Sheet Holder fits A4 size prints. Create your own check sheet to suit your needs and print off as many copies as you need. Ensure that the part intended to be written on fits inside the window opening.

A couple of spare copies can be stored in each Duraframe Note holder and brought to the front when the previous sheet has been completed.

Fixing is very easy and no tools are required. Each holder is supplied with a clear adhesive backing - remove protective film to expose the sticky back. This will grab and hold onto smooth surfaces such as plastered wall, ceramic tiles and glass. Can generally be removed without damaging the wall finish and without leaving a sticky residue.

As with any adhesive system it is important that the wall is clean, free of grease and dry before application.

Smoothing pressure is required to ensure a good bond is formed.

Adhesive fixings of this type are not suitable for flaky substrates, rough timber or bare brickwork.

Durafame Note is not intended for outdoor use as paper inserts will get wet (unless checklists are printed on waterproof synthetic paper and smudge proof pens are used).

**Manufactured by Durable in Germany.**
