- Simply snap the sides open, insert your printed sign, and close - the sprung aluminium sides secure your name sign

Edge Snap 15 mm profile

Description

Slimline door signs

Changeable slimline door signs are perfect for door labels in busy offices and equally for residential homes to display the name of the current occupant. Slim edge snaps can also be used as small changeable signs for exhibits, galleries etc. where a title or description needs to be displayed on the wall.

Our interchangeable office door signs accept your own paper inserts printed on a standard office printer and then trimmed to size. The slimline 15mm wide silver aluminium profiles at each side snap open to allow ordinary paper inserts to be updated as required. The aluminium profiles are neatly finished with grey plastic end caps.

- The **A7 Slim Edge Snap** fits a paper insert 75mm high by 104mm long - that's 3in x 4in. This is ideal for displaying room numbers or small nameplates with minimal text.
- The **1/3 A4** fits a third sheet of A4 cut widthways: 99mm high by 210mm long. This is the size of a typical Compliments slip or DL-size small window envelope.
- The **A5 Slim Edge Snap** suits printed inserts 210mm by 148mm. The A5 version can be used landscape or portrait. View More Details for visible image sizes.
- All models are supplied with clear plastic cover sheet together with adhesive pad fixings. The Slimline range does not provide a screw-on option but the pre-applied adhesive strips bond well. This is a reliable as well as easy way to mount.

More Information

This is the Slimline range with 15mm wide snap profiles. Additional sizes are available in the Classic range of door signs with 25mm wide profiles.

Supplied with pre-applied adhesive tape ready to stick! Can be used landscape or portrait.

- 1. Unclip the two silver sides and remove the anti-glare poster protector.
- 2. Place your printed paper sign and protector in the frame.
- 3. Click the silver sides shut to grip the sign.

Your door sign / meeting room sign can be changed in seconds.
