Best quality PixQuick office wall signage for offices, schools, galleries

PixQuick office wall signage is an excellent choice in a huge range of environments from corporate offices, schools, and galleries to hotels and hospitality venues. PixQuick is a perfectly clear high-quality polycarbonate curved door sign holder intended for fixing to walls and office doors to display name signs and other printed information. With a great range of sizes sharing a common look to provide a uniform and integrated signage system, your space will look contemporary and professional.

The prestigious look of the Pixquick range makes it popular in high-end offices, galleries, and museums. Equally the tough design, which will stand up well to school corridor rough and tumble, makes this range of signs a good choice in the education sector.

This very easy-to-use signage system is ideal for self-printed paper signs, especially if they need to be changed frequently.

- Range of sizes from Mini 2"x6" (52x148mm) up to popular A4 and A3 sizes. Click on More Information for details for exact dimensions.
- The hinged front, which opens by depressing an inconspicuous release button positioned on either side, presents a gloss look - enhancing signs printed on ordinary paper.
- Precision molded and beautifully styled for high-end presentation.
- Frameless appearance with clever design in dustproof and shatter-resistant polycarbonate.
- Fixes to walls, doors, glass partitions, etc. with strong adhesive strips (supplied) or concealed screw fixings.
- Highest quality curved face door sign for prestige locations which is virtually unbreakable.

More Information

Why are Pixquick curved door sign holders relatively expensive?

Quite simply this prestige office wall signage is made from the highest grade of crystal clear polycarbonate, this means that they outlast most other office signage systems and still look exceptional years after less expensive door signs have either broken or lost their shine.

Reasons to buy the Pixquick sign system

In certain industries image is everything, you've just spent a fortune on nice desks, artwork, and computer equipment everything that says to your client you are a progressive forward-thinking company with aesthetically pleasing surroundings. Now is not the time to spoil that image with a mismatch of different signs. Pixquick is a full signage system from the mini that you might sign the stationary or janitor's storeroom through to the impressive A3 for the conference suite or boardroom. You can now create an impressive signage flow throughout your establishment at every step giving your client the feeling that you are a quality business. This Pixquick signage system can be seen in many corporate headquarters where cost is less important than image.

Things to consider when fitting the PixQuick system

We humans like to know where we are going and that we are in the right place, with careful consideration for the rest of the furniture in the area where the signage will be fitted, determine a height and position relative to which way a door opens and be consistent. People quickly understand where to look if the signage is fitted in a uniform fashion.

Pixquick Sizes and Orientation

Each size is naturally **portrait or landscape** (as specified below) but can be turned through 90 degrees when positioning so as to hinge from the top rather than the side.

Note: Inch sizes are approximate only

Mini 2" x 6" (52x148mm) landscape (manufacturer calls this size A8L).

There is a matching [desk sign](#).

A6 4"x6" (105x148mm) landscape

1/3A4 / DL 4" x 8" (105 x 210mm) portrait (manufacturer calls this size A6L)

At 105mm rather than 99mm this is not strictly 1/3rdA4, but that's the closest std size.

A5 6"x8" (148x210mm) landscape, includes FREE table-support.

A4 8"x12" (210x297mm) portrait.

A3 12"x16" (297x420mm) portrait

Table support attachments are available separately for Mini, 1/3rd A4 and A6 sizes. Please call.
