Description

Flat front minimalist office door signs

Introducing our flat front minimalist office door signs, perfect for modern spaces and contemporary interiors. The Smartquick range of corporate office nameplates and sign holders accepts paper inserts, allowing facilities managers to easily keep information signs and door nameplates up-to-date with matching styling across all sizes.

The sleek flat design of Smartquick features a discrete front opening system similar to its curved-face Pixquick family. Constructed with ultra-high-quality polycarbonate, these door signs offer a minimalist and elegant solution suitable for even the most prestigious offices or facilities.

Changing the sign insert is a breeze with the cassette-style flip-open front. Our A6 size at 10x15 cm (approx) and

square format at 15x15 cm are perfectly sized for use as door signs for private offices, surgeries, and consultation rooms. The A4 size is ideal for larger spaces for conference rooms and displaying certificates. A3 size is also available from stock for general wayfinding and fire evacuation plans.

All models come with fixing screws and alternative VHB adhesive mounting tape (for smooth surfaces such as glass) for hassle-free installation. The gloss finish and crystal-clear hinged front add a touch of sophistication to your office signage while the strong polycarbonate construction ensures durability and longevity. Upgrade your office signage with our flat front minimalist door signs today.

- Gloss finish crystal clear hinged front with strong polycarbonate construction for an elegant and practical office signage solution.

More Information

SmartQuick corporate office name plates

SmartQuick produces high-quality and good-looking corporate name plates for doors and walls. The front panel of Smartquick is crystal clear polycarbonate, a high-quality polymer with excellent impact resistance against accidental knocks. The glossy surface finish creates a high-end look even when the insert is printed on plain copier paper. The back panel is white to create a good neutral backing to paper inserts to avoid distracting 'show through' when thinner printed inserts are used.
