## Description

---

### **ClearView frameless document holder in A4 & A3**

**For fixing to a wall or window - made from tough high-grade polycarbonate plastic.**

ClearView frameless document holders provide quick and easy access to printed A4 notices and A3 signs that can be updated on a regular basis. Compared with other types of wall sign holders this clever frameless design features a quick-release fold-down front flap. The opening front makes it easier to insert a printout or poster.

- Frameless wall document display holder made from virtually unbreakable rigid polycarbonate.
- Frameless appearance looks clean, smart, and professional.

- Supplied with clear adhesive discs which will stick the holder securely to smooth clean surfaces, walls, windows, etc.
- On windows/glass partitions ClearView can be used double-sided.
- Top thumb hole in A4 size lets you change daily menus or notices with ease - available in separate portrait and landscape versions.
- A3 holder can be mounted either in portrait or landscape.
- The front panel is hinged to open fully for cleaning - simply lift up and open the front flap.

## ClearView frameless wall document display holder

This frameless wall document display holder by ClearView fits A4 and A3 size prints. The A3 wall sign holder fits A3 paper (297mm x 420mm) and can be mounted landscape or portrait. The hinge is on the long side - so when fitted portrait the 'door' opens to the side. The A3 model does not have a thumbhole whereas both A4 models have thumbholes at the top.

Create your own signs or use pre-printed posters, advertisements or sales particulars.

This product matches [ClearWindow](#) range - a similar design but with a cut-out 'write-on' open area in the front face for creating, ticking or initialling lists and schedules.

Fixing is very easy and no tools are required. Each A4 ClearView holder is supplied with four circular clear adhesive discs made from a strong gel adhesive. A3 size comes with six sticky clear discs. They will grab and hold permanently onto smooth surfaces such as plastered wall, ceramic tiles and glass.

ClearView makes an excellent window sign holder mounted directly on glass

## Suitable surfaces on which to fix ClearView holders

Some walls have an anti-graffiti coating to prevent contaminants from sticking - and that can affect our adhesive. If in doubt please check one unit stuck up overnight (or longer) before fixing multiple ClearView holders. In the unlikely event that the adhesive pads do not perform as expected please contact us regarding alternative fixing options (e.g. drilling into the wall and screwing).

As with any adhesive system, it is important that the wall is clean, completely free of grease and dry before application. Firm pressure is required over the adhesive fixing points to ensure a good bond is formed.

Adhesive fixings of this type are not suitable for flaky substrates, rough timber, or bare brickwork. ClearView is not intended for outdoor use as paper inserts will get wet.
