## Interior directional signs 25 or 30 cm wide with tape

### Short Description

---

- Direction signage system with easy stick-to-the-wall or door adhesive tape pre-applied
- Value indoor directions wall signs with flex-in front lens to protect your own printed insert
- Stick-on only model - easy to apply and is very secure on most surfaces.

## Description

---

### Direction system - 25 or 30cm slat length

This value direction system for indoor directions is a great option for businesses looking to enhance interior wayfinding on a budget. The signage slat system is available in two widths to suit most buildings and has a curved silver aluminium body and a clear plastic (PETG) print protector. This type of sign is particularly good when directional signs need to be changeable, for instance, when room or department locations change.

- Robust curved metal sign in brushed silver finish with clear plastic (PETG) print protector and black end caps.
- Supplied with adhesive tape pre-applied to the back of the sign for mounting either directly to the wall or onto a backing board.
- Can be used with printed sign inserts or flexible sign substrates up to 1mm thick (eg. for use with engraving laminates).
- Supplied with a suction tool to aid removal of plastic protector.
- Two sizes of 10x25 cm and 15x30 cm.

For higher-specification curved aluminium door signs which can be screwed to the wall please refer to the links below.

More Information

**HOW TO DESIGN YOUR SIGN for 10 x 25 cm wall sign**  
Various graphics software packages can be used but if you prefer to use **Word** these tips might help:  
Go into Layout Tab and select Orientation>Landscape (so it will fit onto A4 paper)  
Go into Insert tab Text Box>Draw a text box (or adapt a ready-made Word text box).  
Use size controls to accurately set the box height to 10cm and width to 25cm. You can use this as a trimming guide after printing.  
Click inside the box to start typing adjusting font type and font size to achieve your desired layout. Make sure you leave enough space all around your text.

**HOW TO DESIGN YOUR SIGN for 15 x 30 cm wall sign**  
Adapt the above instructions to this larger size - but ideally use an A3 size printer as the longest side of A4 is slightly less than the optimum (29.7 cm instead of 30 cm).

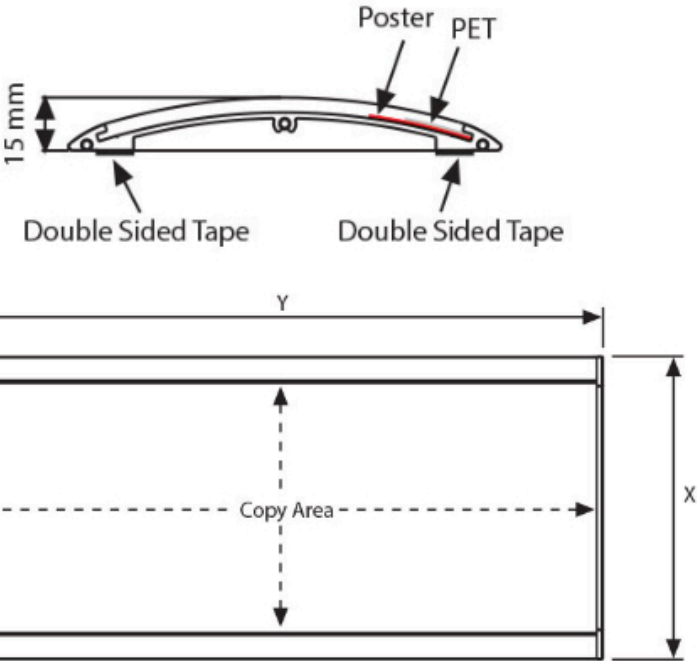

**About this range of wall signs**  
All curved aluminium signs in this range are supplied with black plastic end caps and come with a sunction tool to make it easy to remove the plastic cover sheet. The table below covers all sizes in the range defining the size of print you require and indicating the top and bottom margin which will not be visible once the print is inserted into the slot.

Item.	External size	Print size	Visible copy size
WDS.50.150	68 x 156 mm	52 x 150mm	46 x 150mm
WDS.50.250	68 x 156mm	52 x 250mm	46 x 250mm
WDS.75.150	90 x 156mm	74 x 150mm	68 x 150mm
WDS.75.250	90 x 256mm	74 x 250mm	68 x 250mm
WDS.100.250	120 x 256mm	105 x 250mm	99 x 250mm
WDS.100.600	120 x 606mm	105 x 600mm	99 x 600mm
WDS.150.300	162 x 306mm	148 x 300mm	142 x 300mm
WDS.150.600	162 x 606mm	148 x 600mm	142 x 600mm
