## Clip on ticket holder: small double-sided

### Short Description

---

- Clip on card holder double ended for up to 9mm information cards
- Information holder for printed panel tickets upto 9mm thickness

## Description

---

### Double sided ticket clip for panels and cartons

Double-sided clip on ticket holder to attach pricing labels and small signs to thin walled products, cardboard display outers and food containers – to name but a few applications.

- Swivel knuckle joint made from white plastic connects two clear plastic clips.
- The clips contain a tiny spring steel component to attach like a tiny clothes peg – but much neater and professional looking.
- Typically used for clipping signs onto merchandise in stores but also popular as a display clip in many varied visual merchandising applications.
- The clips will attach successfully onto most corrugated cardboard, glass vases, thin walled food containers and plates. The jaws are more tolerant of different thicknesses than versions with push in card grippers up a maximum of 9mm.
- Lower cost shipping by post applies for up to 50 CG.04

More Information	<p><b>Specifications</b></p> <p>Double ended or twin card clips are made from durable polycarbonate. The central knuckle joint allows the two ends of the clip to bend and swivel in a range of directions. The jaws of the clips will hold a card or similar say 1mm or 2mm thick. The clips will also attach to most cardboard boxes or display outers. These double ended clips are also valuable for attaching onto fabrics, garments, curtains, swatches etc.</p>
