# **Short Description**

- Slim frame Magnetic fastener for Vertical attachment
- Sold singularly, powerful magnets to attach poster slim frames to steel surfaces

# **Product Images**

### **Description**

# Slim frame Magnetic fastener for Vertical attachment

Magnet fitting to attach plastic poster frames to steel walls, machinery and other flat surfaces which are compatible with magnets.

- 2 magnetic fasteners required per frame.
- Suitable for Slim frame sizes A5, A4 and A3.
- Powerful magnets.

# **Additional Information**

More Information	These mangets are quite powerful and will reliably secure these sign frames to steel back panels of shelving and onto certain white goods or products made of steel (including galvanised steel but not stainless steel as most stainless grades will not attract magnets). The advantage is that they are easy to move around or re-position without damaging the surface. Other types of even more powerful magnet fittings are available to suit this range of poster frames. Please call to discuss any particular requirements.
Delivery and Returns	<ul> <li>We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout.
