

Showcard frame with magnet attachment

Short Description

- Clear Plastic poster sign holders with magnetic fittings
- A4 clear showcard frames
- A3 Clear showcard frames

Product Images

A3 and A4 clear showcard sign holders with magnets

This clear plastic A4 showcard frame comes with two magnetic attachments for securing to steel retail fixtures such as gondola tops. Also available in A3 size – each set includes one frame and two magnetic bases.

- Clear showcard holder matches any scheme – the colour of the printed POS shows through the transparent frame, right to the frame border.
- Top loading frame can be used with one or two-sided prints on paper or thin card. We recommend the separate optional U-pocket accessory for paper POS or price tickets.
- The frame can also be used landscape with the slot in the side.
- Magnet base can swivel to adjust for use as a flag sign on vertical metal surfaces.

More Information	<p>Magnetic base swivels from 90 degrees to the frame to parallel with the frame.</p> <p>Magnets attach to ferrous metal such as steel shop fittings. The bases are not intended as free-standing feet in general (non-magnetic) situations.</p> <p>Clear plastic showcard frames are made from ABS plastic and will accept inserts up to 1mm thick either in conjunction with a clear plastic U-pocket (thin anti-glare plastic formed into a U-shape to offer protection to a print) or a stiffer showcard can be inserted directly. These frames cannot be used with a correx backing sheet or with encapsulated prints – please consider our higher spec Slim frames if this is a requirement. Slim frames are available with a similar but slightly heavier duty magnetic swivel base. The two fittings are not interchangeable as the frame profiles onto which the fittings attach are slightly different thicknesses.</p>
Delivery and Returns	<ul style="list-style-type: none">• We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout.
