

Slide-in metal poster frames A4 A3 A2 A1

Short Description

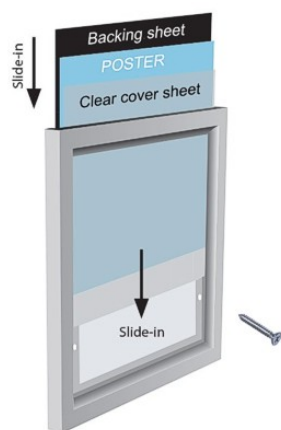

- Top loading smart wall mounted aluminium frames for posters or display boards
- Supplied with rigid backing sheet and clear cover for displaying printed posters
- Also accepts foamboard graphics up to 5mm thick with easy change top entry slot

Product Images

Wall mounted metal poster frames – slide in frame

Metal frames with insert slot lets you slide in your printed posters or sign board with ease. The poster entry slot is in the short side – i.e at the top when mounted portrait or side-loading if mounted landscape. Slide-in frames offer stylish presentation and excellent value for posters and display boards.

- Suitable frame for mounted photographs or digitally printed foam board available in A4, A3, A2 and A1 size
- Robust silver metal poster frame made from aluminium for wall mounting.
- Slide-in frame for simple top loading graphic change.
- Easy wall fixing – no separate brackets required (fixings included). Fixings are concealed when the graphic panel is inserted.
- Supplied with rigid backing sheet and poster cover for displaying printed posters.
- Can also be used with your own rigid printed panels or mounted display boards up to 5mm thick.
- This frame is made of aluminium which can be fully recycled.

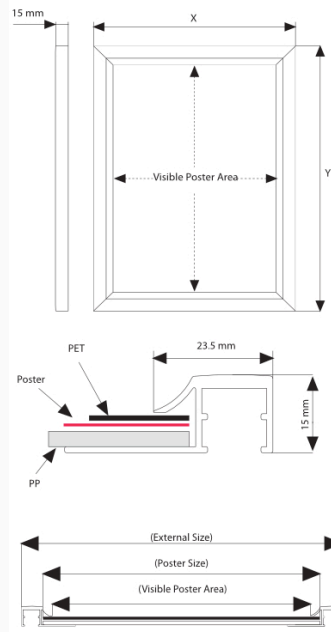

More Information

How to use metal slide-in frames

These poster frames are for single-sided use and are intended for wall mounting indoors. The poster slot is always on the short side of the frame. Normally these metal frames are used portrait with the poster or display board inserted from the top. However the frames can also be mounted landscape with the graphic panel slid in from the side. When being used to display a poster or print the backing sheet stiffens up the display, while the clear plastic acetate sheet protects the poster from damage and dirt. When used with a rigid display board the backing sheet can be put to one side allowing a graphic panel up to 5mm thick to be inserted. When the mounted photograph or advertisement is over-laminated to protect the surface and enhance the print, the supplied acetate can also be removed. We recommend it is stored for possible future use. These metal frames are always supplied from stock with backing sheets and clear front covers. For large projects (i.e. large number of frames required) they can be produced to special order as an empty frame without the inserts. For smaller quantities there is no saving, and taking the standard product means much quicker delivery. Insert your print in front of the backing sheet and follow on with the acetate at the front. Posters can be updated without removing the frame from the wall.

Product Code	External (X-Y)	Poster Size	Visible Poster Area
ALS.A4	243 x 330 mm	210 x 297 mm	196 x 283 mm
ALS.A3	330 x 453 mm	297 x 420 mm	283 x 406 mm
ALS.A2	453 x 627 mm	420 x 594 mm	406 x 580 mm
ALS.A1	627 x 874 mm	594 x 841 mm	580 x 827 mm

Assembly and Installation

How to wall mount metal poster frames

Ensure that there will be room to insert the poster - especially if using a rigid display board. In this case the clearance from the top of the frame to the ceiling needs to be at least the same as the height of the frame. To fix metal slide-in frames to the wall, temporarily remove the backing sheet and front acetate. The fixing holes in the rear profile are then visible. Ensuring the frame is perfectly level, mark the wall through the 4 fixing holes. Drill the wall and use the supplied wall plugs (in masonry walls) and screws to fix the frame. When fixing into wood the plastic wall plugs are not required. If in doubt about fixing please consult a trades person or competent DIYer. In some situations these frames can be successfully mounted with double-sided adhesive tape or adhesive backed hook and loop instead of screws. Success will depend on the type of wall surface and its suitability for this method. We recommend you test before going ahead.

Delivery and Returns

- We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.
- Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked. If goods are received damaged or faulty we will take care of the problem.
