Description

Angled bed card ticket holders – standard duty

Angled PVC bed card ticket holders to suit either standard 8" or double-size 16" bed labels. The POS holders attach to the vertical upstand around a plant display table.

Special clips allow rapid and secure attachment to many types of plant benches. The holders are slightly angled to make it easier for customers to read about the plants or shrubs on display.

This economy bed card holder comprises a length of PVC track fitted with special clips to present at an inclined angle.

- PVC card holders can be moved easily making this an adaptable solution for displaying individual bed labels in nurseries.
- The internal height of the channel is 6in to suit both traditional and double-length bed labels produced on plastic 0.4 – 0.5mm (400 to 500 micron) thick. The width is either 8in or 16in to suit double-width bed cards.
- Available in a choice of two colours: black or dark green.
- Alu clips rivetted to the back of the frame are adjustable by hand to suit a range of bench surround thicknesses up to 25mm /1".

Slide-in PVC individual bed card holder

Slide in your bed card tickets and labels with ease! This economy version of the fully framed individual angled bed card holder is a great alternative when cost is a consideration and budgets are tight.

More Information	<p>WE MANUFACTURE THESE TO ORDER - PLEASE ALLOW A WEEK OR TWO TO DELIVER.</p> <p>Angled display of bed labels using Green Magic holders with uniquely adjustable clips can be moved and re-positioned around the nursery or garden centre whenever required.</p> <p>Note: This model may not perform as well as the slightly dearer Slim Frame version - especially with thinner or non-standard size bed labels, which are susceptible to being dislodged by wind.</p> <p>PVC bed label holders are supplied in a choice of two widths with our special aluminium Vari-Tite clips fastened to the back of the frame. These special clips are made of soft bendable (malleable) aluminium. The clip's design incorporates an internal serrated edge to achieve a reliable and secure grip on typical softwood or treated timber garden centre benches which have a lip, board or upstand around the edge of the table.</p> <p>The integral clips are pre-formed but can be squeezed to achieve a tight fit on whatever timber bench surround you have. This includes most half-round timber but the clips will not suit benches with especially thick surrounds [maximum 25mm (1") thick] or flat tables where there is no upstand].</p> <p>These individual bed card holders also suit some aluminium plant tables. To check the fit please order one as a sample to try - a reduced P&P charge applies to single purchases. For large schemes please call to discuss whether you qualify for complimentary samples.</p>
Delivery and Returns	<ul style="list-style-type: none">• We offer a choice of delivery options tailored to the goods selected and your location, calculated for you automatically in the Checkout. When feasible, you will be offered options for Free, Economy or Next Day delivery.• Any product returned by the purchaser must be unused and in its original packaging, which should be unmarked.
