### **Vertical & upright bed card holders**

Use on timber back-boards or plant bench dividers at roughly eye level - i.e. display is sufficiently high off the ground that an inclined presentation is not required. They can also be used on a sloping front edge of a plant table (provided there is room for the clips to hook over the board.)

- A5 Slim frame mounted landscape suits all types of A5 and 8x6" bed labels used in plant nurseries and garden centres.
- Clips bonded to the back of the frame will attach to timber boards up to 25mm (1") thick.
- Squeeze by hand to achieve a good push-on fit - but the holders can be removed or moved when required.
- Available in a choice of frame colours. Use the drop-down list to select your colour preference.
- A4 portrait and A3 landscape versions are also available to special order - please call.
